Entries as recorded by the user in CustodyBook. This document lists 73 entries from September 1, 2026 to September 30, 2026.

Logged: when the entry was saved in the app, by the phone’s clock (local time). Added later: logged more than 24 hours after the date and time it describes. Edited n×: saved with changes n times after it was logged (see Change history).

Change history is kept since 2026-08-31: entries logged before then could have been edited earlier without a record.

Photo taken: the date saved in the photo by the camera that took it or, for a photo taken in the app that carries no date, the phone’s clock when it was taken; “Photo date unknown” when there is neither.

Report fingerprint (footer of each page): the SHA-256 of the data file attached to this PDF (custodybook-data.json), not of the printed pages. If anyone edits that data, the fingerprint won’t match. It can’t show who made the record or when.
